Hi Peter,

I wanted to follow-up to see if there is an opportunity to meet with you, Joe Goffman and others at EPA to discuss methane regulations. INGAA is supportive of federal methane regulations and would appreciate a conversation with EPA to share our thoughts and hear where the administration may be going.

Regards,
Sandra

Hi Peter,

It's been a while since INGAA has met with you and I hope you are doing well.

I'd like to find an opportunity to meet with you, Joe Goffman, and whomever else at EPA may be appropriate to share INGAA's views on methane, update you about our recent climate statement which includes a commitment among our members to work together as an industry to achieve net-zero GHG emissions, and share any other information that may be useful as the agency is thinking about future regulations.

Would it be possible to meet with you, Joe and others sometime in April? I'd like to invite a couple of my members to participate, too.

Regards,
Sandra
